

BULLET-RESISTANT WINDOWS

SLEEK DESIGN, SECURE CONSTRUCTION

IXT Series BRW Windows provide interior and exterior design solutions for a sleek, secure and professional look. An optional exterior color can blend in with your building's color scheme or can match your institution's marketing program, while the interior maintains a stainless steel professional look.

Show Your Colors Bullet Resistant Windows

CUSTOM COLORS

- Optional color match for exterior stainless steel surfaces to blend in with your building color scheme or to match your institution's marketing program

WINDOW CONSTRUCTION

- Two piece construction for added security and to ensure proper fit and finish in wall thicknesses from 7" to 16" without modifying either the wall or window
- Stainless steel construction assures critical protection and durable, all-weather finish
- Classic angular window frame blends with any building's architectural style
- Glass slightly tilted to reduce glare
- Choice of glass in clear (standard) or bronze tint (optional)
- Optional window shades available
- Windows may be installed in combination with a transaction drawer and/or remote drive-up systems, or positioned independently for customer observation

AVAILABLE UL RATED GLAZING

Bullet-resistant glazing meets or exceeds all UL requirements.

- UL Level I Glass
- UL Level I Thermal Glass
- UL Level III Glass

AVAILABLE SIZES (STANDARD)

- 3' x 5'
- 3' x 10'
- 3' x 6'
- 3' x 12'
- 3' x 8'
- 3' x 15'

ENVIRONMENTALLY FRIENDLY

- All construction materials used are RoHS compliant – details available upon request
- All painted surfaces are powder coated, releasing no VOCs during manufacture
